OSAGE LEASE AGAIN

Guthrie, Ok., Oct. 13.—A reply to President Roosevelt covering the last official denial, written by Frank Pierce, acting secretary of the interior, that the Washington administration gave to representatives of the Standard Oil Company an advantageous lease of Osage Indian land, was issued from Gov. Haskell's office today. A significant statement by Gov. Haskell is that officers in charge of the Indian office at Muskogee, upon orders received from the interior department at Washington yesterday, refused to permit examination of the records concerning other leases, with which it was desired to compare the Osage nation lease.

Gov. Haskell states that the explanation of Mr. Pierce is not at all satisfactory, and contains practically nothing in conflict with the governor's complaint. He agrees that the original lease was made with E. B. Foster, on the entire Osage nation, for ten years, at 10 per cent royalty, and that ten years later Foster transferred the lease to the Indian Territory Illuminating Oil Company, which the governor states, is a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the Osage nation, and, addressing the president, Gov. Haskell says:

"Theodore Roosevelt, President, Washington, D. C.: Sir—I have just received a letter from Frank Pierce, acting Secretary of the interior department, date Oct. 9, stating that my letter to you asking for an explanation as to the oil lease on the Osage lands had been referred to his department. "He attaches an explanation which is not at all satisfactory. It contains practically nothing in conflict with my complaint. I agree that in 1896 the democratic administration made a lease to W. B. Foster of the entire Osage nation for ten years at 10 per cent royalty. At that time the nearest known oil production was about 700 miles from the Osage nation, so that the Foster lease in 1896 was a rank, wildcat proposition and of course the usual pioneer royalty of 10 per cent was allowed. But during the ten years the field was developed and found to be unusually rich, and ten years at this low royalty was ample to those who developed it. "Foster transferred his lease to the Indian Territory Illuminating Oil Company, a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the eastern part of the Osage nation, also extending north into Kansas, east into Indian Territory and south into Oklahoma, and the whole area is known as the richest oil field in existence at this date. The remainder of the Osage nation was barren. "Congress gave you the power to fix the consideration that the Osage people should receive as their part of the oil value after the expiration of the ten-year lease. It was well-known at that time what the sub-lessees were paying for small tracts in the Osage nation and adjoining land in the Cherokee nation, as the Cherokee leases passed through the interior department, and their approval and the royalties and bonuses received by the land owners were a matter of record. It is scarcely possible that with these records before you, you failed to notice the \$10 per acre cash bonus and one-sixth royalty was much below the average compensation to the land owners. Indeed, in the many instances cash bonuses from \$50 to even \$100 per acre were received by the land owners. "A few cases found in the interior department records are as follows: "The Lannon family, 700 acres, Cherokee nation, immediately adjoining the Osage nation; interior department lease made in 1903, cash bonus \$40,000, royalty one-ninth. We must have eight or ten similar leases where given public information shows cash bonuses substantially as large as the above and the royalties running at one-sixth, but your subordinate officers in charge of the Indian office at Muskogee, on orders from the interior department, this

morning refused to permit examination of the records.

"Congress no sooner gave out the authority to fix the amount of compensation than the Osages filed a written request with you for an opportunity to be heard and produce evidence showing that a cash bonus of \$7,000,000 and one-sixth royalty would be indeed a moderate compensation to them.

"You neglected to give the Osages any opportunity whatever to be heard. The fact that 680,000 acres of rich oil land was the stake the Standard Oil Company was playing for, and the land owners denied the right to be heard, is something that will require a more lucid explanation than Mr. Pierce has seen fit to give.

"Any practical business man is ready to recognize that 680,000 acres in one tract of land is of far greater proportionate value than small tracts of a few hundred acres each, and, therefore, the greater surprise that you should have fixed a royalty (without any cash bonuses) much lower than the individual land owners were securing on small tracts. There were no such improvident leases being made in that whole combined field.

"Mr. Pierce suggests in his letter to me that as a matter of fact it was not known at the time that the Standard Oil Company was the real party in interest. I submit to you that the very fact that Messrs. Guffey, Barnsdale and Senator Depew, well-known Standard Oil representatives, with others of the same odor, making a persistent personal appeal to you for this low royalty to the land owners should have been ample evidence that the Standard Oil Company was the real beneficiary.

"It was the same Senator Depew who induced you to grant the Prairie Oil and Gas Company a franchise over the protest of Secretary Hitchcock, less than one year before that time, and in this one transaction you gave the Standard Oil Company a donation from the property of the Osage Indians of more than enough to pay for the famous \$29,000,000 fine.

"I shall insist on the cancellation of this lease in the interest of the citizens of our state, or that congress take action to declare that improvident and unjust lease void, and secure for the Osage nation the just and reasonable compensation that other persons are receiving.

"Marvelous as it may seem, the difference between the royalty you fixed for this new lease and the average amount received in the balance of the oil field by land owners controlling their own property is fully equivalent to a net loss of \$10,000 to each and every member of the Osage nation, and whether this gross injustice to our people was accomplished by your lack of consideration or in any other way, the authorities of the state of Oklahoma will not rest until this lease has been canceled and justice done our people.

Respectfully,

"C. N. HASKELL, Governor."

WHEN you buy clothes ask for the maker's name; and find out what it stands for.

Your clothier may be absolutely honest, and an expert judge of clothes; but the maker, and how he makes, are the things for you to find out. Quality is a matter of fact, not of expert judgement.

You know our name as good clothes makers; it stands for all-wool fabrics and no other; for the best ideas in style, the most perfect tailoring, for clothes designed to fit, for the things you want.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though surely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruiise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

"Camille" Tonight at Opera House.

"The Slaves of the Orient" with its special scenery and costuming was a good comedy bill last night and thoroughly enjoyed. Every part was well played. The specialties carried by the company are good and come in for a liberal share of applause. Miss Ewing and her company are beyond a doubt proving to be the very best week stand attraction that has been seen here.

Tonight "Camille" another feature play, is announced, in which it is said Miss Ewing is very fine. It is announced that the Directorate gown will be worn in "Sapho." Manager Parks expects to have the sides of the house enclosed today and stoves put in for tonight.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 58 hours after starting the Restorative treatment patients say they realize a gain. Sold by G. M. Ramsey.

Roosevelt's One Best Bet.

In the fifteen years he has been prominently in the public eye, Theodore Roosevelt has demonstrated that he is master of the science of politics. By the force and vehemence of his diction he has overthrown and crushed out any man or influence that presumed to question either his judgment or his veracity. Distinguished men like William E. Chandler of Maine, Benjamin R. Tillman of South Carolina, Joe Bailey of Texas, Chancellor Day, Professor Long—all of them incurred the presidential displeasure and were promptly assigned to their places in the ranks of "undesirable citizens." Even so distinguished a figure as Judge Alton B. Parker was branded with the lie direct, when, as candidate against Roosevelt for the presidency, he dared to tell what all the world now knows was the truth about the slush fund raised by the republican committee from the trusts and railroads to insure his defeat.

In a dozen sensational newspaper controversies before the American public, Theodore Roosevelt pulled out of a critical situation with flying colors, but now in the closing hours of his reign he has consigned a man to the bench of oblivion who refuses to stay consigned. For the first time in his untarnished career he has encountered a man who refuses to be a scoundrel, in silence, because Teddy chooses to label him scoundrel. For the first time in his public career he has encountered a man who, when lied about has the courage to denounce the liar, and the resourcefulness to convict him before the greatest human tribunal—the dispassionate opinion of the American people.

Teddy is a wise old owl, but for once he got into the wrong tree when he tried to crush and destroy the Governor of Oklahoma by the mere weight of his dictum.

Instead of prating about state issues and lying about the democratic state officers, why don't the republican papers of Oklahoma print a few choice extracts from Candidate Taft's speech at Oklahoma City on the constitution? The speech was broad enough to be of interest in a presidential campaign, as it gives the republican candidate's views on several questions which are now issues between the two great national parties. For instance, they might quote that phrase where the republican candidate gave as his objection to the initiative and referendum that "it placed too much power in the hands of the people."

Again it would make most interesting reading matter to the union labor readers of these republican papers if they would reproduce in full "Injunction Bill's" frank defense of government by injunction. Particularly should these papers be sure to quote literally his declaration that government by injunction does not deny the working man any of his rights because it denies him a jury trial, "because they never were entitled to a trial by jury."

Miss Ewing.

Miss Ewing playing this week in Ada is well-known by the lovers of high play-work throughout the various better Texas and Oklahoma towns where she has been appearing during several seasons. Several Ada folks either formerly of Muskogee, Greenville, Bonham, Gainesville, Sherman or Denison assert that Miss Ewing's comment and popular recognition on each occasion of her appearance.

This talented young woman with little Miss Undine Andrews, who knows how, with the balance of the company will probably play to full houses each appearance.

Taft says the bank guaranty idea is dangerous and impracticable. That isn't the first time Taft has opposed something the people of Oklahoma approved of. It is recalled that less than two years ago Taft said the Oklahoma constitution was a bad thing. He declared that its adoption would be dangerous. Oklahoma adopted it despite his warning and has been doing fairly well under it. Oklahoma has tried the bank deposit guaranty idea for eight months and it suits her. Oklahoma isn't very much impressed with Mr. Taft's judgment on questions of public policy.

OSAGE LEASE AGAIN

Guthrie, Ok., Oct. 13.—A reply to President Roosevelt covering the last official denial, written by Frank Pierce, acting secretary of the interior, that the Washington administration gave to representatives of the Standard Oil Company an advantageous lease of Osage Indian land, was issued from Gov. Haskell's office today. A significant statement by Gov. Haskell is that officers in charge of the Indian office at Muskogee, upon orders received from the interior department at Washington yesterday refused to permit examination of the records concerning other leases, with which it was desired to compare the Osage nation lease. Gov. Haskell states that the explanation of Mr. Pierce is not at all satisfactory, and contains practically nothing in conflict with the governor's complaint. He agrees that the original lease was made with E. B. Foster, on the entire Osage nation, for ten years, at 10 per cent royalty, and that ten years later Foster transferred the lease to the Indian Territory Illuminating Oil Company, which the governor states, is a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the Osage nation, and, addressing the president, Gov. Haskell says: "Theodore Roosevelt, President, Washington, D. C.: Sir—I have just received a letter from Frank Pierce, acting Secretary of the interior department, dated Oct. 9, stating that my letter to you asking for an explanation as to the oil lease on the Osage lands had been referred to his department.

"He attaches an explanation which is not at all satisfactory. It contains practically nothing in conflict with my complaint. I agree that in 1896 the democratic administration made a lease to W. B. Foster of the entire Osage nation for ten years at 10 per cent royalty. At that time the nearest known oil production was about 700 miles from the Osage nation, so that the Foster lease in 1896 was a rank, wildcat proposition and of course the usual pioneer royalty of 10 per cent was allowed. But during the ten years the field was developed and found to be unusually rich, and ten years at this low royalty was ample to those who developed it.

"Foster transferred his lease to the Indian Territory Illuminating Oil Company, a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the eastern part of the Osage nation, also extending north into Kansas, east into Indian Territory and south into Oklahoma, and the whole area is known as the richest oil field in existence at this date. The remainder of the Osage nation was barren.

"Congress gave you the power to fix the consideration that the Osage people should receive as their part of the oil value after the expiration of the ten-year lease. It was well-known at that time what the sub-lessees were paying for small tracts in the Osage nation and adjoining land in the Cherokee nation, as the Cherokee leases passed through the interior department, and their approval and the royalties and bonuses received by the land owners were a matter of record. It is scarcely possible that with these records before you, you failed to notice the \$10 per acre cash bonus and one-sixth royalty was much below the average compensation to the land owners. Indeed, in the many instances cash bonuses from \$50 to even \$100 per acre were received by the land owners.

"A few cases found in the interior department records are as follows: "The London family, 700 acres, Cherokee nation, immediate adjoining the Osage nation; interior department lease made in 1902 cash bonus \$40,000, royalty one-sixth. We must have eight or ten similar leases where given public information shows cash bonuses substantially as large as the above and the royalties running at one-sixth, but your subordinate officers in charge of the Indian office at Muskogee, on orders from the interior department, this

morning refused to permit examination of the records.

"Congress no sooner gave out the authority to fix the amount of compensation than the Osages filed a written request with you for an opportunity to be heard and produce evidence showing that a cash bonus of \$7,000,000 and one-sixth royalty would be indeed a moderate compensation to them.

"You neglected to give the Osages any opportunity whatever to be heard. The fact that 680,000 acres of rich oil land was the stake the Standard Oil Company was playing for, and the land owners denied the right to be heard, is something that will require a more lucid explanation than Mr. Pierce has seen fit to give. "Any practical business man is ready to recognize that 680,000 acres in one tract of land is of far greater proportionate value than small tracts of a few hundred acres each, and, therefore, the greater surprise that you should have fixed a royalty (without any cash bonuses) much lower than the individual land owners were securing on small tracts. There were no such improvident leases being made in that whole combined field.

"Mr. Pierce suggests in his letter to me that as a matter of fact it was not known at the time that the Standard Oil Company was the real party in interest. I submit to you that the very fact that Messrs. Guffey, Barnsdale and Senator Depew, well-known Standard Oil representatives, with others of the same order, making a persistent personal appeal to you for this low royalty to the land owners should have been ample evidence that the Standard Oil Company was the real beneficiary.

"It was the same Senator Depew who induced you to grant the Prairie Oil and Gas Company a franchise over the protest of Secretary Hitchcock, less than one year before that time, and in this one transaction you gave the Standard Oil Company a donation from the property of the Osage Indians of more than enough to pay for the famous \$29,000,000 fine.

"I shall insist on the cancellation of this lease in the interest of the citizens of our state, or that congress take action to declare that improvident and unjust lease void, and secure for the Osage nation the just and reasonable compensation that other persons are receiving.

"Marvelous as it may seem, the difference between the royalty you fixed for this new lease and the average amount received in the balance of the oil field by land owners controlling their own property is fully equivalent to a net loss of \$10,000 to each and every member of the Osage nation, and whether this gross injustice to our people was accomplished by your lack of consideration or in any other way, the authorities of the state of Oklahoma will not rest until this lease has been canceled and justice done our people.

Respectfully,

"C. N. HASKELL, Governor."

A Lecture Free.

Frank Smith of Dallas will close with his lecture, "The Little Rulers of the World," this evening at the church at 7:30. There will be no admission charged. WHEN you buy clothes ask for the maker's name; and find out what it stands for.

Your clothier may be absolutely honest, and an expert judge of clothes; but the maker, and how he makes, are the things for you to find out. Quality is a matter of fact, not of expert judgement.

You know our name as good clothes makers; it stands for all-wool fabrics and no other; for the best ideas in style, the most perfect tailoring, for clothes designed to fit, for the things you want.

The way to be sure of getting them is to be sure of the name, don't take anybody's word for it; if it isn't in the clothes, don't buy them.

By the force and vehemence of his dictation he has overthrown and crushed out any man or influence that presumed to question either his judgment or his veracity. Distinguished men like William C. Chandler of Maine, Ben R. Tillman of South Carolina, Joe Taylor of Texas, Charles D. Davis of Oregon—all of them named in the presidential dispute and were primarily assured to the place in the ranks of the "Roosevelt's Own" by the force of his dictation.

Instead of prating about state issues and lying about the democratic state officers why don't the republican papers of Oklahoma print a few choice extracts from Candidate Taft's speech at Oklahoma City on the constitution? The speech was broad enough to be of interest in a presidential campaign as it gives the republican candidate's views on several questions which are now issues between the two great national parties. For instance, they might quote that phrase where the republican candidate gave as his objection to the initiative and referendum that "it placed too much power in the hands of the people."

Again it would make most interesting reading matter to the union labor readers of these republican papers if they would reproduce in full "Injunction Bill's" frank defense of government by injunction. Particularly should these papers be sure to quote literally his declaration that government by injunction does not deny the working man any of his rights because it denies him a jury trial "because they never were entitled to a trial by jury."

Miss Ewing.

Miss Ewing playing the week in Ada is well-known by the lovers of high play-work throughout the various better Texas and Oklahoma towns where she has been appearing during several seasons. Several Ada folks either formerly of Muskogee, Greenville, Bonham, Gainesville, Sherman or Demson assert that Miss Ewing's comment and popular recognition on each occasion of her appearance.

This talented young woman with little Miss Undine Andrews who knows how with the balance of the company will probably play to full houses each appearance.

Taft says a bank currency idea is dangerous and impracticable. That is not the first time Taft has opposed something the people of Oklahoma approved of. It is recalled that less than two years ago Taft said the Oklahoma constitution was a bad thing. He said that its adoption would be disastrous. Oklahoma adopted it despite his warning and has been doing fairly well under it. Oklahoma is the bank deposit guaranty act. Eight months and it suits her. Oklahoma is very much impressed with Mr. Taft's judgment on questions of public policy.

OSAGE LEASE AGAIN

Guthrie, Ok., Oct. 13—A reply to President Roosevelt covering the last official denial, written by Frank Pierce, acting secretary of the interior, that the Washington administration gave to representatives of the Standard Oil Company an advantageous lease of Osage Indian land, was issued from Gov. Haskell's office today. A significant statement by Gov. Haskell is that officers in charge of the Indian office at Muskogee, upon orders received from the interior department at Washington yesterday refused to permit examination of the records concerning other leases, with which it was desired to compare the Osage nation lease.

Gov. Haskell states that the explanation of Mr. Pierce is not at all satisfactory, and contains practically nothing in conflict with the governor's complaint. He agrees that the original lease was made with E. B. Foster, on the entire Osage nation, for ten years, at 10 per cent royalty, and that ten years later Foster transferred the lease to the Indian Territory Illuminating Oil Company, which the governor states, is a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the Osage nation, and, addressing the president, Gov. Haskell says: "Theodore Roosevelt, President, Washington, D. C.: Sir—I have just received a letter from Frank Pierce, acting Secretary of the interior department, dated Oct. 8, stating that my letter to you asking for an explanation as to the oil lease on the Osage lands had been referred to his department.

"He attaches an explanation which is not at all satisfactory. It contains practically nothing in conflict with my complaint. I agree that in 1896 the democratic administration made a lease to W. B. Foster of the entire Osage nation for ten years at 10 per cent royalty. At that time the nearest known oil production was about 700 miles from the Osage nation, so that the Foster lease in 1896 was a rank, wildcat proposition and of course the usual pioneer royalty of 10 per cent was allowed. But during the ten years the field was developed and found to be unusually rich, and ten years at this low royalty was ample to those who developed it.

"Foster transferred his lease to the Indian Territory Illuminating Oil Company, a well-known subsidiary of the Standard Oil Company. Development showed that oil covered 680,000 acres in the eastern part of the Osage nation, also extending north into Kansas, east into Indian Territory and south into Oklahoma, and the whole area is known as the richest oil field in existence at this date. The remainder of the Osage nation was barren.

"Congress gave you the power to fix the consideration that the Osage people should receive as their part of the oil value after the expiration of the ten-year lease. It was well-known at that time what the sub-lessees were paying for small tracts in the Osage nation and adjoining land in the Cherokee nation, as the Cherokee leases passed through the interior department, and their approval and the royalties and bonuses received by the land owners were a matter of record. It is scarcely possible that with these records before you, you failed to notice the \$10 per acre cash bonus and one-sixth royalty was much below the average compensation to the land owners. Indeed, in the many instances cash bonuses from \$50 to even \$100 per acre were received by the land owners.

"A few cases found in the interior department records are as follows: "The Lannon family 700 acres, Cherokee nation, benefited by a leasing the Osage nation; interior department lease made in 1903, cash bonus \$40,000, royalty one-sixth. We must have eight or ten similar leases where given public information shows cash bonuses substantially as large as the above and the royalties running at one-sixth, but your subordinate officers in charge of the Indian office at Muskogee, on orders from the interior department this

morning refused to permit examination of the records.

"Congress no sooner gave out the authority to fix the amount of compensation than the Osages filed a written request with you for an opportunity to be heard and produce evidence showing that a cash bonus of \$7,000,000 and one-sixth royalty would be indeed a moderate compensation to them.

"You neglected to give the Osages any opportunity whatever to be heard. The fact that 680,000 acres of rich oil land was the stake the Standard Oil Company was playing for, and the land owners denied the right to be heard, is something that will require a more lucid explanation than Mr. Pierce has seen fit to give.

"Any practical business man is ready to recognize that 680,000 acres in one tract of land is of far greater proportionate value than small tracts of a few hundred acres each, and, therefore, the greater surprise that you should have fixed a royalty (without any cash bonuses) much lower than the individual land owners were securing on small tracts. There were no such improvident leases being made in that whole combined field.

"Mr. Pierce suggests in his letter to me that as a matter of fact it was not known at the time that the Standard Oil Company was the real party in interest. I submit to you that the very fact that Messrs. Gaffey, Barnsdale and Senator Depew, well-known Standard Oil representatives, with others of the same order, making a persistent personal appeal to you for this low royalty to the land owners should have been ample evidence that the Standard Oil Company was the real beneficiary.

"It was the same Senator Depew who induced you to grant the Prairie Oil and Gas Company a franchise over the protest of Secretary Hitchcock, less than one year before that time, and in this one transaction you gave the Standard Oil Company a donation from the property of the Osage Indians of more than enough to pay for the famous \$29,000,000 fine.

"I shall insist on the cancellation of this lease in the interest of the citizens of our state, or that congress take action to declare that improvident and unjust lease void, and secure for the Osage nation the just and reasonable compensation that other persons are receiving.

"Marvelous as it may seem, the difference between the royalty you fixed for this new lease and the average amount received in the balance of the oil field by land owners controlling their own property is fully equivalent to a net loss of \$10,000 to each and every member of the Osage nation, and whether this gross injustice to our people was accomplished by your lack of consideration or any other way, the authorities of the state of Oklahoma will not rest until this lease has been canceled and justice done our people.

Respectfully,

"C. N. HASKELL, Governor."

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 58 hours after starting the Restorative treatment patients say they realize a gain. Sold by G. M. Ramsey.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local. Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical muscle membrane suppository remedy. While Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments. "The Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, case nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—use general tonic to the system. For positive local help, use as well

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently through safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 30 minutes, and the tablets simply distribute the unnatural blood pressure.

Brise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

Served as coffee, the new coffee substitute known to grocer's everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc., have been so cleverly blended as to give a wonderful satisfying coffee taste and flavor. And it is "made in a minute," too! No tedious 20 to 30 minutes boiling. Test it and see. Dr. Shoop created Health Coffee that the people might have a genuine coffee substitute, and one that would be thoroughly satisfying in every possible respect. Sold by R. S. Tobin. 156-1m
